

MOLDED RUBBER & POLYURETHANE PRODUCTS

ONE STOP SHOP FOR YOUR CUSTOM RUBBER & POLYURETHANE NEEDS.

Having over 40 years of experience in the industry, we are one of the few companies that has the capability to manufacture both custom molded polyurethane and rubber products at the same facility. This has lead us to become the leading manufacturer of custom molded rubber and polyurethane products. Our core focus began with various oilfield and marine applications, but has grown to meet the needs of virtually every industry from manufacturing to food goods processing. We have manufactured countless rubber and urethane parts and products used in many industries worldwide.

Products We Offer:

- Rollers •Tension Pads •Forklift Pads •VIV Strakes •Towline Protectors •Pipe Spacers
- Push Knee Pads •Seals & Gaskets •Fittings •Pipe Clamps •Pipe Rack Covers
- Pipe Centralizers •Rounds Stock •Square Stock •Sheets

Refurbish Your Old Parts:

The next time you are thinking of discarding those old, used, worn out rollers or parts and want to replace them with new ones, think again and contact Mark Tool & Rubber. We will be able to see if we can save you some money by rebuilding your old parts, by putting them in our burn off oven to be cleaned and then re-coat them with rubber or polyurethane.
