

# Rubber Tensioner Pads

Mark Tool Co, Inc. has provided tensioner pads to the major lay barge operation for years. We can manufacture almost any size and type tensioner pads to meet or exceed customer specification. Long Lasting and durable, Mark Tool Co, Inc. will keep customer tensioner pads in stock for immediate shipment. Based on customer demands for volume and usage. Our range of high-quality rubber parts and components includes rollers, tension pads and a wide variety of custom molded rubber products. We have the capabilities and resources to take our customers' designs and create precise molds that are then utilized to create high quality parts through compression molding, and injection molding.

TYPICAL PROPERTIES	STANDARD	UNIT	VALUE
Density	ASTM D 412-0ae2	g/cm <sup>3</sup>	1.20
Shore Durometer	ASTM D 2240	SHORE A	75
Tensile Strength	ASTM D-624-C	PSI	2200
Ultimate Elongation	ASTM D 412-0ae2	%	350
Compression Set	ASTM D395-02 B 22h at 350°F	%	20

These are typical results and are Not to be used for quality control.
